Education

- **FCT Nova – Masters** — Caparica
  Computer Science Engineering — *2026 – est. 2028*
  (Major in Information Systems — Minor in Secure and Dependable Systems)
- **FCT Nova – Bachelors** — Caparica
  Computer Science Engineering — *2022 – 2026*

Experience

- **Innova Consulting** — Caparica
  Junior Developer — *2025 – 2026*
  - **Innova Web App**: First contact with front-end development and React, also the first time I worked with Figma.
  - **Terra Molhada App**: Used Tailwind Frameworks and started doing back-end integration, used Android Studio for app simulation and testing.
  - **Terra Molhada Back Office**: Used Tailwind and Typescript to create a back office with strong back-end integration, also got some experience with testing APIs using Postman and Dbeaver to test the database.
- **Legau** — Caparica
  Internship — *2025 (Feb – Aug)*
  - **Work environment**: Experience in a real-world remote work environment and Agile methodology.
  - **Technologies**: Developed web scraping pipelines in Python and gained experience with Docker and Postman. Stored the collected data in Elasticsearch for use as a knowledge base by the company chatbot, accessed through LangChain.
- **Pizzaria Vieira**
  Waiter — *2021 – 2024*
  - **Customer service**: Learned work ethic, communication skills, teamwork and how to handle stress and pressure.

Projects

- **Personal Website**
  React and TailwindCSS
  - **Overview**: Created a personal website to showcase my projects and skills, hosted at GitHub Pages.
- **MotoMaps App**
  Flutter, Dart and MySQL
  - **Overview**: Developed a mobile application that provides motorcycle riders with a platform to register scenic routes
  - **Technologies**: Used Flutter and Dart for cross-platform mobile development, and MySQL for database management.

Technical Skills

- **Languages**: Java, C, Python, OCaml
- **Databases**: MySQL, PostgreSQL, MongoDB, SQLite
- **Web Development**: HTML, CSS, JavaScript, React, Typescript, TailwindCSS, TailwindReact, Flutter
- **Tools**: Git, GitHub, Docker, Linux, Windows, VS Code, IntelliJ, Eclipse, Postman, Figma, Dbeaver

Languages

- **Portuguese**: Native Speaker
- **English**: C1 (Advanced)
